

# C-Pep™ Elastyl CC

(Previously known as Corum 8816CC)

## Product Information

### FEATURE

- Stimulate fibroblast proliferation
- Wound healing effect
- Reduce lip crests
- Imparting firming effect
- Smoothing out wrinkles while strengthening the skin's natural barrier function

### INCI NAME

Pentaerythrityl tetraisostearate (and) Caprylic/Capric Triglyceride (and) Stearalkonium Hectorite (and) Propylene carbonate (and) Palmitoyl hexapeptide-12

### CAS No.

62125-22-8 (and) 65381-09-1 (and) 94891-33-5 (and) 108-32-7 (and) 171263-26-6

### EINECS No.

263-423-1 (and) 265-724-3 (and) 305-633-9 (and) 203-572-1 (and) -

### CHARACTERISTICS

Appearance	Viscous liquid
Odour	Characteristic
Peptide content	100 ppm

### SPECIFICATIONS

Viscosity 60rpm (25°C S62)	250 - 450 cps
----------------------------	---------------

### DESCRIPTION

Peptides are miniature fragment of skin protein; they are messengers signaling dermis for synthesizing the material necessary for the skin.

C-Pep™ Elastyl CC is a synthetic lipopeptide, conjugating long chain fatty acid to improve skin penetration and skin affinity.

C-Pep™ Elastyl CC is the spring fragment of elastin; it stimulates fibroblasts in the elastin synthesis. The fatty acid linkage does not change the biological activity. It acts particularly on cutaneous suppleness.

### STORAGE

Protect from contacting with light, heat and moisture. Store in closed containers at room temperature. Shake well before use.

### APPLICATIONS

C-Pep™ Elastyl CC is commonly used in lip products and make-up.
