Product: Azeclair™

January 2022, Version 4

**01. PRODUCT IDENTIFICATION****Product Name**

Azeclair™

**INCI Name**

PCPC Potassium Azeloyl Diglycinate

IECIC list 壬二酰二甘氨酸钾

表示名称 アゼロイルジグリシンK

한국 INCI명/성분명 포타슘아젤로일다이글라이시네이트

**Country of Origin**

The undersigned CORUM Inc. at FL 6, No. 360, Ruei Guang Rd., Neihu District, Taipei, Taiwan declares that the above product is the product of Taiwan. The manufacturing site is at No.10, Cheng Kung 2<sup>nd</sup> St., Min-Hsiung Industrial Park, Chiayi, Taiwan.

**Cosmetic Grade Ingredient**

The above product with its assigned INCI name, is currently published in Cosmetic Ingredient Dictionary and Handbook by the Personal Care Products Council.

**Composition**

The above product complies the following component:

|                                     | Amount   | CAS No.     |
|-------------------------------------|----------|-------------|
| <b>COMPONENT</b>                    |          |             |
| Water                               | 69.3-72% | 7732-18-5   |
| Potassium Azeloyl Diglycinate       | 28-30%   | 477773-67-4 |
| <b>PRESERVATIVE</b>                 |          |             |
| Phenoxyethanol                      | <0.5%    | 122-99-6    |
| Chlorphenesin                       | ≤ 0.1%   | 104-29-0    |
| Caprylyl Glycol                     | ≤ 0.1%   | 1117-86-8   |
| <b>IDENTIFIED IMPURITY/RESIDUAL</b> |          |             |
| Potassium chloride                  | 0.1-1%   | 7447-40-7   |

Product: Azeclair™

January 2022, Version 4

**ISO16128**

According to the ISO standard criteria and calculating rules, we provide the information on the degree of natural origin for the above product.

| COMPONENT | Natural index | Natural origin index | Organic index | Organic origin index |
|-----------|---------------|----------------------|---------------|----------------------|
| Azeclair™ | 0.7           | 0.835                | 0             | 0                    |

**Manufacturing Process**

The above product is manufactured by synthetic processes.

**02. STATEMENTS ABOUT INGREDIENTS**

**Allergens/Fragrance Allergens**

The above product is not expected to contain wood, paper, soy, nut, beef or any of their derivatives. When reviewed against the lists of US FDA and EU EFSA allergens, the above product is considered as allergen free. No allergen is intentionally added or introduced throughout the manufacturing processes. Based on the information provided by our raw material suppliers and to the best of our knowledge of our product chemistry, we confirm that the above product is not expected to contain any of the 26 allergens listed in Annex III of the EU Cosmetic Regulation (EC) No. 1223/2009.

**BSE/TSE**

The above product is free from the risk of all BSE and TSE. We hereby confirm that the raw materials of the above product are not expected to contain any animal or cell culture derived products or additives.

**CMR (Carcinogenic, Mutagenic, Reprotoxic Substances)**

None of the ingredients contained in this product is classified as carcinogenic, mutagenic or toxic for reproduction in accordance with Annex VI of Regulation (EC) No. 1272/2008 and its latest updates.

Product: Azeclair™

January 2022, Version 4

**1,4-Dioxane**

The above product is not expected to contain any 1,4-dioxane and ethylene oxide. Neither 1,4-dioxane nor ethylene oxide related derivatives are used in the manufacturing process and we would not expect to find 1,4-dioxane and ethylene oxide present.

**Diethylene Glycol/Glycol Ethers**

The above product is not expected to contain diethylene glycol and any glycol ethers as they are not part of the manufacturing process nor are intentionally added.

**Formaldehyde**

The above product is not expected to contain formalin, free formaldehyde or chemicals containing formaldehyde donors. Formaldehyde-releasing preservatives and packaging materials are also not used in the manufacturing process of the above product, and so the release of formaldehyde during storage and use is not expected.

**GMO (Genetically Modified Organisms)**

None of the raw materials used in the production is from genetically modified origins. The above product is not produced using GMO.

**Heavy Metal**

The above product is expected to be free from heavy metals because heavy metals are not part of the manufacture nor are intentionally added.

**Hormones, Phthalates and Bisphenol**

The above product is not expected to contain hormones, phthalates and bisphenol as they are not used in the manufacture.

**Latex**

The above product is not expected to contain latex as it is not used in the manufacture.

**Microbial Content**

The total aerobic microbial count (TAMC) and the total yeast/mold count (TYMC) of the above product are both less than 100 cfu/g that meet the standard of total microbial count for general cosmetic raw material.

Product: Azeclair™

January 2022, Version 4

**Nanoscale Materials**

The above product is nanoparticle free. None of the nanomaterials are used in the manufacturing process nor presented in the above product, in compliance with Article 16 of Cosmetic Regulation (EC) No. 1223/2009, Commission Recommendation 2011/696/EU, and The French decree No. 2012-232.

**Non-Irradiation**

The raw materials of the above product have not been radioactively contaminated, and the irradiation is not used in the manufacturing process.

**Paraben and Sulphates**

The above product is not expected to contain paraben and sulphates, as they are not used in the manufacture.

**Paraffin**

The above product is not expected to contain paraffin as it is not used in the manufacture.

**Pesticide**

The above product is not intended to add any pesticides including triclosan during the manufacturing process, and we do not expect to have any appreciable trace of pesticide.

**Plastic Microbeads**

The above product is not expected to contain any plastic microbeads. Plastic microbeads defined by restricted proposals of ECHA are not part of the raw materials, nor are intentionally added in the manufacturing process. Therefore, they are not expected to be present.

**PAH (Polycyclic Aromatic Hydrocarbons)**

The above product is expected to be free of PAH because they are not part of the manufacturing process nor are intentionally added.

**Silicone**

The above product is not expected to contain silicone as it is not used in the manufacture.

**VOC (Volatile Organic Compound)**

According to European Commission Directive 99/13/EC, the ingredients of this product are not classified as VOC.

Product: Azeclair™

January 2022, Version 4

**Wheat and Gluten**

The above product is not expected to contain wheat or gluten that may cause sensitization by inhalation and skin contact.

**03. REGULATORY STATUS****California Proposition 65**

The ingredients contained in this product are not listed by the State of California as substances that may cause cancer or other reproductive harm.

**Global Compliance**

|                |   |
|----------------|---|
| ASEAN          | None of the ingredients contained in the above product is listed in the Annex II Part 1 and Annex III Part 1 of Annexes of the ASEAN cosmetic directive.  |
| Canada         | None of the ingredients contained in the above product is listed in the Cosmetic Ingredient Hotlist (2015) of prohibited and restricted ingredients for use in cosmetic products.   |
| China          | All the ingredients contained in the above product are listed in the latest version of IECIC list (2021), please refer to the IECIC name(s) in section 1.   |
| European Union | The above product is tested for its safety profile and intended for use in the cosmetic products. The manufacturing process of the above product does not use any substances in the List of Substances Prohibited in Cosmetic Products, as specified in Annex 2 of Regulation (EC) No. 1223/2009 with its amendments listed in Commission Regulation (EU) 2019/831. |
| Japan          | None of the ingredients contained in the above product is prohibited for use in cosmetics.  |
| Taiwan         | Other than Phenoxyethanol(CAS: 122-99-6) and Chlorphenesin(CAS: 104-29-0) are restricted with maximum concentration of 1% and 0.3% in cosmetics respectively, none of the ingredients contained in the above product is prohibited or restricted for use in cosmetics.  |
| USA            | None of the ingredients contained in the above product is prohibited nor restricted by FDA regulations.   |

Product: Azeclair™

January 2022, Version 4

**Halal Certificate**

This product complies with the Halal standards and has been reviewed and approved by the Taiwan Halal Integrity Development Association (THIDA) for Halal certification.

**Kosher**

The above product is not expected to contain any animal, milk, or animal derived ingredients.

**Non-Animal Origin/Vegan**

All the materials involved in the above product contain no substances which are completely or partially of animal origin, nor involved the use of any animal product, by product or derivatives. We also declare that our process to produce the above product is vegan compliant. The word “animal” refers to the entire Animal Kingdom, that is all vertebrates and all multi-cellular invertebrates.

**Non-Animal Testing**

From individual ingredients to final formulation, we always try our best to use the most up-to-date, innovative, scientific, non-animal cosmetic testing evaluations to demonstrate safety. The above product has not been the subject of animal testing for cosmetic purposes by or on behalf of CORUM Inc. We are committed to support calls for a worldwide animal testing ban on cosmetics.

**NOAEL (No Observed Adverse Effect Level)**

We are committed to enforcing our No Animal Testing Policy, no data on NOAEL is available.

**RSPO (Roundtable on Sustainable Palm Oil)**

The above product uses palm oil or palm kernel oil derived raw materials. Moreover, the supplier(s) is certified in compliance with RSPO Supply Chain Certification Standard. Nonetheless, the raw materials used in the above product will not be derived from palm oil and palm kernel oil starting from March 1 in 2022.

**SVHC (Substances of Very High Concerns)**

The above product is not expected to contain any substance classified as SVHC under REACH, Article 57 and not in the candidate List of SVHC published by ECHA according to REACH, Article 59(10).

Product: Azeclair™

January 2022, Version 4

#### 04. EU REACH STATUS

The above product complies with EC Regulation No. 1907/2006 (REACH) and its latest adaptations. The following table shows registration status (REACH) of components in this product:

| INCI                          | Status                 |
|-------------------------------|------------------------|
| Water                         | Exempt (Annex IV/V)    |
| Potassium Azeloyl Diglycinate | Exempt (<1 Tonne/year) |

#### 05. FAIRTRADE AND SUSTAINABILITY

The product has been developed following our CSR policy and green chemistry principles to minimize the environmental impact of the activities and manage resources sustainability and responsibility. The raw materials in our manufacturing process do not belong to the Brazilian Access to Genetic Resources and Associated Traditional Knowledge, according to the Biodiversity Law, 13, 123/2015, and are sourced in countries with Access and Benefit Sharing (ABS) regulations in place including the Nagoya Protocol and Convention on International Trade of Endangered Species (CITES) to promote fair sharing of benefits arising from the utilization of genetic resources.

Our core aims align closely with several of the UN SDGs, which provide us with a framework for assessing how we can align environmental and social outcomes more effectively, rather than looking at each issue on a standalone basis. On people, we have the code of conduct policy to support gender equality, anti-discrimination, anti-child worker, anti-forced labor, workplace safety, freedom of association, the rights to collective bargaining, good health and well-being. On prosperity, we make targeted investments in infrastructure and energy projects, integrating SDGs at each stage to achieve positive and measurable social and environmental outcomes. On planet, we positively report to CDP climate change and EcoVadis agencies to manage risks and minimize the environmental impact, as well as to create maximum benefits for local communities.

We are certified with ISO 9001 (Quality), ISO 14001 (Environmental), and ISO 45001 (occupational health and safety) management systems, which enable us to efficiently control risks and improve our performance. We strive to continuously improve our corporate processes for optimal use of precious natural resources, to actively provide a working environment that encourages the workplace safety, health and well-being of our employees, and to create and support a sustainable, socially equitable economy.
