

Corum 9120

Product Information

FEATURE

- Emollient from natural source
- Refatting agent
- Conditioning effect
- For clear product
- Non-irritating

INCI NAME

Jojoba Wax PEG-120 Esters

CAS No.

159518-81-7

CHARACTERISTICS

Appearance White to pale yellow waxy solid
Odour Typical

SPECIFICATIONS

Acid value (mg KOH/g)	Max 3.5
Hydroxy value (mg KOH/g)	15 - 30
Iodine value (g/100g)	6 - 11
Saponification value (mg KOH/g)	8 - 12
1,4-dioxane (ppm)	10 Max.

DESCRIPTION

Corum 9120 provides water and alcohol soluble jojoba emolliency for cosmetic formulations.

STORAGE

Store in tightly closed containers between 10 - 35°C.

APPLICATIONS

Corum 9120 is a non-irritating additive for personal care products. It improves the skin and mucous membrane compatibility of surfactant mixtures, also has a conditioning effect. It can be used in facial and body cleansers for dry skin or sensitive skin, baby products, shampoos, shower gel, and foam bath concentrates.
